

I would love to see Indiana's Atty Gen stop wasting time and money fighting these telephone issues and start focusing on Torte Litigation and Criminal Appeals cases. If I choose to do business with a company, I have no problem with that company calling me. If I don't want to speak with them, I will exercise my right to not answer or to hang up, depending on my mood at the time. I am also aware that I can request to be removed from anyone's list, so I don't see any further actions needed. Thank you for your time. Sarah Lafuse
